## Make the most of your precious metals

### What you can offer us

In servicing the jewellery trade and other industrial users of precious metal, we're able to process:

- **Gold, Silver, Platinum, Palladium Rhodium and other Platinum Group Metals (PGM's)**
- **Jewellery scrap and assayed precious metal ingots**  
Hallmarked scrap and assayed bars are bought at our Hatton Garden trade counter at our current trade prices, with material received by post or courier being dealt with by return. We can also pre-price scrap over the phone, so your profit will be locked in, providing materials are as stated.
- **Job lots, end of lines and retailers' redundant stock**  
We're usually able to give immediate decisions and payments on job lots and end of lines, and are happy to look at retailers' retirement or closing down stock.
- **Jewellers' lemls, sweeps and precious metal scrap for melt and assay**  
With prices starting at £20 plus VAT, lemls and melts are usually treated and paid for within 3 working days, while sweeps take around 7 to 10 days.
- **Dental scrap, lemls and sweeps** As most dental material is not in an easily identifiable form, it usually requires treatment or melt and assay, with timings and prices as above.
- **Platinum group metals scrap and residues**  
We handle both solids and residues, offering a fast assessment and efficient service to a whole range of industries.

## What we can offer you

### A one-stop reclamation service

As one of the longest standing independent dealers in the trade (over 30 years), our precious metal reclamation service at Gerrards is renowned. Fast, confidential and competitively priced, it offers excellent and consistent returns through a whole range of payment options.

For example, as well as cash, cheque, bacs or chaps, you can be paid in fine precious metal or by metal account transfer. Our precious metal includes fine gold grain, fine gold bars in various weights, or bullion coins such as Sovereigns, Kruggerands and Britannias.

- Deposit given for melt and assay service to help your cash flow
- You can fix your metal on the London fix or fix your metal on live trading price
- Stone recovery and diamond reclamation service
- Secure premises and parking available upon request

Last but not least, no matter how big or small your transaction with us, you can look forward to a personal service that is second to none.

**For a guaranteed, reliable, fast and efficient service with best prices paid and no hidden charges. Simply visit our website, complete the online Postal Sale Form and let Gerrards do the rest.**
